In this it is expected to demonstrate consultant's credential & capability in terms of tool / operational platform in project management. Kindly note that while consultant will have experience in using project management tool, it is not clear whether GMDC has any project management tool already implemented. It is nowhere mentioned in the scope that consultant has to provide such tool. We request you to note that there are many projects management tools in the market with varied functionality and cost. GMDC can select the tool after detailed evaluation of multiple tools & the successful bidder consultant can help in this evaluation. However, it is strongly recommended that consultant should not be asked to include the cost of such tool in the financial bid. If this is done, there will not be an apple to apple comparison. A consultant may consider very basic project management tool (including excel or MS Projects) which may not completely suffice the requirement and will be very cheap; whereas another consultant may	<p>The requirement of usage of tool is specified in TOR part 3 (h) and (i) . Please refer to the page no 11 and 12 of the Scope/TOR.</p> <p>The Consultant is required to have tools for assessing and monitoring operational readiness to highlight critical activities, key delays and suggest critical areas to de-bottleneck. It is expected to use these tool/s for executing its scope. GMDC will not be purchasing this tool, or its license to operate. The tool will be used by the Consultant as a service and its cost is required to be borne by the Consultant.</p>
